Northwell rated  
No. 1 health  
system for  
diversity

Northwell Health has been named the best health system for diversity in the United States, according to the latest DiversityInc ranking of Top Hospitals and Health Systems.

New York State's largest health care provider and private employer made the list for the eighth straight year and moved to the top spot in the 2020 DiversityInc rankings for Hospitals and Health Systems one year after placing second. Northwell was recognized from more than 1,000 organizations for its ongoing efforts to formalize its diversity, inclusion and health equity strategy with a focus on enhancing the health needs of the disparate communities and the patients it serves.

# Supplier Diversity

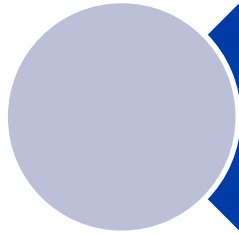

In 2020 Procurement continued to further the work in ensuring our suppliers and partners reflect the diversity of our patients and the communities we serve.

Track and monitor to goals, Tier 1 and Tier 2 Diverse and Small Business spend across all categories.

Collaborated with Center for Equity of Care to charter the Supplier Diversity Committee. The purpose of the Supplier Diversity Committee is to create an action plan that is cross departmental and cross functional. This plan will ensure there is a system wide commitment to Supplier Diversity and that there are standardized processes in place for measuring goals and successes.

Continue to focus on engaging in socially responsible partnerships.
